Estimated to total approximately 300 tons per week (more or less). No vendor shall be entitled to a specific amount of this item for any given week or across the contract period. This item shall be transported and disposed of by Group C or D if applicable.

Mixed biosolids, grit and/or screenings from the Central District Wastewater Treatment plant, suitable for disposal in a Class 1 landfill. Estimated to total approximately 300 tons per week (more or less). No vendor shall be entitled to a specific amount of this item for any given week or across the contract period. Estimated to total approximately 200 tons per week (more or less). No vendor shall be entitled to a specific amount of this item for any given week or across the contract period. This item shall be transported and disposed of by Group C or D if applicable.

3.5 SCOPE BY GROUP AND METHOD OF DISTRIBUTION

- 3.5A Scope: Group A - Transport Class B biosolids in the form of sludge cake from the Central District WWTP and dispose of such sludge via land application, further process sludge cake off-site for the purpose of conversion into a biofuel and/or Class AA biosolids for land, or other method permitted under federal, state, and local law, but shall not dispose of this sludge via landfill application.

Weekly allocation of Group A work shall be made using the following formula:

- a** is the estimated base amount of sludge per vendor available for purposes of this weekly exercise.
- b** is the estimated amount of sludge to be offered to the **second** lowest vendor.
- c** is the estimated amount of sludge to be offered to the **third** lowest vendor.
- d** is the estimated amount of sludge that is offered to the lowest vendor and not offered to the 2nd or 3rd low vendor due to their higher price, and therefore the estimated amount of additional sludge offered to the first low vendor.
- e** is the **total** estimated amount of sludge offered to the **first** lowest vendor which includes the amount identified by **d**.
- x** is the total estimated weekly sludge produced; this estimate will be identified by WASD staff.
- y** is the percent difference in price of the first low vendor to the second low vendor.
- z** is the percent difference in price of the first low vendor to the third low vendor

$$\frac{x}{\text{\# of vendors in Group A}} = a \text{ (base amount of sludge available)}$$

$$\frac{(\text{Price of the 2}^{\text{nd}} \text{ lowest bid} - \text{Price of the 1}^{\text{st}} \text{ lowest bid})}{\text{Price of the 1}^{\text{st}} \text{ lowest bid}} = y \text{ (\% diff. in price of the first low vendor to the second low vendor)}$$

SECTION 3
TECHNICAL SPECIFICATIONS

HAULING AND DISPOSAL OF CLASS “B” BIOSOLIDS

$$\frac{(\text{Price of the 3}^{\text{rd}} \text{ lowest bid} - \text{Price 1}^{\text{st}} \text{ of the lowest bid})}{\text{Price of the 1}^{\text{st}} \text{ lowest bid}} = z \text{ (\% diff. in price of the first low vendor to the third low vendor)}$$

$[a - (a \cdot y)] = b$ (amount of sludge to be offered to the **second** lowest vendor)

$[a - (a \cdot z)] = c$ (amount of sludge to be offered to the **third** lowest vendor)

$[(a - b) + (a - c)] = d$ (amount of **additional** sludge offered to the first low vendor)

$a + d = e$ (**total** amount of sludge offered to the **first** lowest vendor)

EXAMPLE

Weekly estimated tonnage is 1500 tons (in this example) with three vendors in Group A; therefore $x = 1500$

$1500 \div 3$ (this assumes there are 3 vendors in the group) = 500 tons = a

Price submitted by vendor #1 bid \$19.00/ton

Price submitted by vendor #2 bid \$21.00/ton

Price submitted by vendor #3 bid \$23.00/ton

$\$21.00 - \$19.00 = \$2.00$ diff. (vendor #2's price minus vendor #1's price)

$2.00 \text{ divided by } 19.00 = 10.53\%$ diff #2 to #1 = y

$\$23.00 - \$19.00 = \$4.00$ diff (vendor #3's price minus vendor #1's price)

$4.00 \text{ divided by } 19.00 = 21.05\%$ diff #3 to #1 = z

Vendor #2 is credited with 500 tons - (500 tons multiplied by 10.53%) = 447.35 tons = b

Vendor #3 is credited with 500 tons - (500 tons multiplied by 21.05%) = 394.75 tons = c

The tons not offered #2 and #3 (157.9 tons) are offered to #1 = d

Therefore #1 will be offered 657.9 tons ($a + d$) = e

In the event that a vendor awarded Group A declines its offered weekly allocation, said sludge will be offered to the next lowest vendor in the group in price order. Any amount refused by all awarded vendors for Group A will be offered to the pre-qualified vendors for Group D.

3.5B Scope: Group B- Transport Class B biosolids in the form of partially dried sewage sludge (PDSS) from the South District WWTP. Awarded vendor shall dispose of such sludge via land application or other method permitted under federal, state, and local law, but shall not landfill said sludge. Any amount refused by the awarded vendor for Group B will be offered to the pre-qualified vendors for Group D.

3.5C Scope: Group C - Transport mixed biosolids, screenings and/or grit from the North, Central, or South District WWTP. Awarded vendor shall dispose of all such mixed

TECHNICAL SPECIFICATIONS

biosolids, screenings and/or grit via land filling. Any amount refused by the awarded vendor for Group C will be offered to the pre-qualified vendors for Group D.

- 3.5D Scope: Group D - To pre-qualify vendors to participate in spot market purchases for hauling and disposal of Class B biosolids as required by the County on an as needed basis.

3.6 EXTRA BIOSOLIDS:

- 3.6A If extra Class B biosolids is available and there is an urgent need to have Class B biosolids immediately transported and disposed, the County may, with no liability therefore, have the Class B biosolids transported and disposed by any parties with whom it has entered into or may enter into transport and disposal contract or the County may transport or dispose of such Class B biosolids itself, and no successful vendor shall have either a cause of action against the County for such transport or any right to receive an equivalent amount of such Class B biosolids from the County at a later date. The County shall in its sole discretion determine when there is an urgent need to have Class B biosolids immediately transported and disposed.
- 3.6B If extra Class B biosolids is available and there is not an urgent need to have the Class B biosolids transported, the County shall contact the vendor(s) in the order arrived at in the formula to establish group A. Vendors shall have one hour from the time of such notification to inform the County as to whether the vendors can transport such extra Class B biosolids. In the event that the notified vendor, either fails to timely respond or is not able to transport such extra Class B biosolids, the County shall notify the next vendor in the order arrived at in the formula to establish group A; in the event no vendors in Group A timely respond or are unable to transport such extra Class B biosolids, the County shall offer such sludge to the pre-qualified vendors for Group D.

3.7 FAILURE TO PERFORM

Class B Biosolids shall be hauled at the dates and times specified on the schedule provided by the County, as specified in Section 3, paragraph 3.3 herein. In the event the successful vendor fails to transport Class B biosolids in accordance with the schedule, and such failure is not the result of force majeure or acts of God, re-procurement charges shall be imposed on the vendor in the amount of ten dollars (\$10.00) per every scheduled ton the vendor fails to haul. In the event that a vendor fails to transport Class B biosolids on three or more occasions, and such failures are not the result of force majeure or acts of God, the successful vendor may be in default of the Contract. For the purposes of this contract, neither the unavailability of trucks nor mechanical failures shall constitute either force majeure or an act of God. Unless notified, in writing, of the existence of force majeure or an act of God within forty eight (48) hours of the occurrence of such acts, the County shall not consider any failures to transport Class B biosolids as excused by force majeure or an act of God.

In no event a vendor that fails to haul biosolids and/or mixed grit screening/biosolids materials due to force majeure or act of God will be entitled to receive, at a later date, an equivalent amount of biosolids and/or mixed grit screenings/biosolids material the vendor

SECTION 3
TECHNICAL SPECIFICATIONS

failed to haul. The vendor is not entitled to any compensation for such biosolids and/or mixed grit screenings/biosolids material.

If a vendor is unable to transport Class B biosolids, the County is under no obligation to store the Class B biosolids scheduled to be hauled by said vendor until the next day, and the County shall dispose of such Class B biosolids as if such Class B biosolids were extra Class B biosolids.

3.8 UNACCEPTABLE PRODUCT

WASD understands and agrees that unacceptable product will not be accepted for disposal at either a landfill or for land application or other legal use. For the purposes of this contract "unacceptable product" shall be defined as product which cannot be either legally disposed of in a lined Class 1 landfill or land applied or otherwise lawfully used pursuant to State and Federal law. The Vendor may refuse any load of product at WASD plants (in the case of land application product) or the landfill which, based on competent substantial evidence, is determined to contain unacceptable product. The Vendor shall notify WASD immediately of its intent to refuse transport or disposal of unacceptable product. Class B biosolids shall not be considered unacceptable if individual Counties ban land application of Class B biosolids but other Counties allow land application of Class B biosolids.
